More features

- 128 bit Security**
Your passwords and personal informations are in secure because Jiffi uses the newest technologies available. Your data is stored in the cloud, but encoded asymmetrically with 128 bit keys.
- 1418 apps App Catalog**
We have collected the most popular web applications, so you only have to enter your user name and password and you can start using them with a single click.
- SAML 2.0 Technology**
Do you want to increase your corporate apps security? We have the solution for that. Jiffi also works as an identity provider using SAML 2.0 standard.

Name

Jiffy is an informal term for any unspecified short period of time, as in "I'll be back in a jiffy". The earliest technical usage for jiffy was defined by Gilbert Newton Lewis (1875–1946). He proposed a unit of time called the "jiffy" which was equal to the time it takes light to travel one centimeter (approximately 33.3564 picoseconds).

We believe that speed is the core value to customers that want to access cloud apps from one place. Introducing "Jiffi", Live, Human, Fast, Bold, Fun.

"in a jiffy"

Jiffi

Live. Human. Fast. Bold. Fun.

A solution which is faster than Justin.
